MEMORANDUM FOR: Director of Information Technology

FROM:

[redacted]  
Director of Training and Education

STAT

SUBJECT: Letter of Appreciation

1. The communications upgrade of the Chamber of Commerce (CofC) Building is nearly complete. As a result, we are in the process of getting significantly enhanced access to the Agency computer systems. Your office has been most helpful in achieving this objective. In particular, we would like to commend [redacted] as well as Dennis Wilson, Paul Santos, and Bernard Myrick from Delta Data Corporation for their efforts in bringing our Information Systems Training Division (ISTD) classrooms on-line with the enhanced system. These individuals worked many hours of overtime to make these rooms available when needed. Without their dedication, creativity, and professional competence, ADP user classes would have been cancelled. [redacted] has been especially helpful to us in determining requirements and planning for terminal installation. Without her creativity and flexible attitude, these rooms would not have been ready on time.

STAT

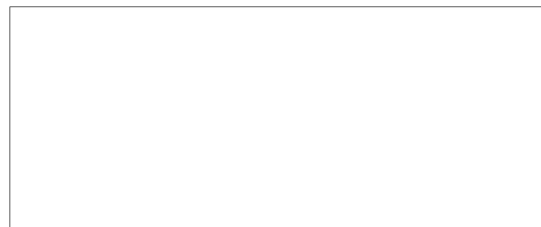

2. We would also like to commend [redacted] and appropriate Delta Data Corporation personnel for their effort in assembling several power filters for use in ISTD classrooms. These filters are used to Tempest protect large screen projectors connected to Delta Data terminals.
